

# New transfer station

## Why a transfer station?

The landfill has reached its end of life.

A weighbridge would need to be constructed at a significant cost to council if the landfill continued.

## How will waste disposal change?

All general household waste will be placed into a large skip bin on site over the fall protection safety rails.

Large bulky items such as household furniture, outdoor play equipment, timber pallets and the like will be placed in a 'Bulk Goods' stockpile.

## Helpful tips

**YOUR LOAD  
MAY BE  
INSPECTED**

### Sort your load

to maximise recycling and minimise your time while visiting the facility.

**DECLARE  
YOUR LOAD  
CORRECTLY**

Certain items need to be declared for health and safety.

## Bag household waste

for ease of disposal over the fall protection rails into the skip bins.

## Safety guidelines

**Never stand on  
the back of  
trailers or utes**

**Never climb or  
lean over the  
fall protection rails**

**ENCLOSED  
SHOES  
ONLY**

**CHILDREN AND PETS  
MUST REMAIN IN  
VEHICLE AT ALL TIMES**
