

Sewer Network Cleaning and Inspection

Issue 1 – May 2024

What is happening?

Bundaberg Regional Council wishes to advise that planned maintenance of the sewer network will be undertaken in your area in the near future and Council's Contractor *may* need to access your property during this process. The contractor will liaise directly with affected residents should access to the network be required within their private property.

Who is conducting the works?

Cleanaway have been engaged to inspect and clean Council's sewer network. Council's contractor will always carry formal identification which can be presented on request and residents can contact Bundaberg Regional Council's Project Manager, Jake Bennett if you have any concerns about a request to access property.

When

Cleaning and inspection activities are expected to be carried out between the hours of 6.30 am and 6.30 pm, Monday to Saturday. Work is expected to continue from Monday 13 May 2024 through to June 2024.

Why Upgrade & What's the Benefits?

Maintenance of the sewer network is essential, and these works need to be completed to ensure the system operates effectively.

Impact from the works?

Works will be undertaken using Traffic Control with closure of sections of the existing footpath

or road shoulder where required. Access to private properties adjoining the work areas will be maintained during this period.

Council advises residents to be aware of inspection and cleaning equipment and requests that all safety signage be adhered to.

The completion of these scheduled works is dependent on weather and may be subject to change.

You may hear the cleaning machinery in the pipework while this work is being completed, this is normal.

Toilets, sinks, etc. can still be used as normal, though while not in use residents are advised to ensure toilet lids are kept down during this period. While being a rare occurrence, air may be released through the toilet pans. This situation is normally caused by partial blockages within the property owners sanitary house drain that prevents the vent on the drain from functioning correctly.

During the works, please direct any enquiries to the Site Supervisor via the contact details below.

Cost - \$119,747.47

Contact Information

Site Supervisor: Anthony Lindeberg – 0488 140 186
Project Manager: Jake Bennett – 0437 551 328
Project Reference: TEN/2305

Bundaberg Regional Council acknowledges that construction work can cause disruption, so we thank residents for their patience and co-operation while we upgrade the Water Services infrastructure in this area. Should you have any concerns or queries, please call Council's Project Manager, Jake Bennett on 1300 883 699.
