

ROADS & DRAINAGE GROUP

Bartholdt Drive, Branyan Flood Evacuation Route - Pre-Construction Works

The State Government has announced Flood Resilience Funding to assist Bundaberg Regional Council to provide a flood evacuation route by constructing the missing section of Bartholdt Drive.

The first stage of this work involves pre-construction with clearing and burning of the road reserve and undertaking roadway design. Clearing will occur over the next few days with burning planned to commence as soon as wind conditions are favourable. A licensed wildlife handler has been engaged to assist in the clearing operations to minimise impacts to wildlife. Council plans to have the new two lane bitumen sealed roadway constructed by the end of December 2014.

This notice is delivered to make you aware of the proposed works and allow you to seek further information and comment on the proposal.

Council has not determined at this stage what works outside the missing section will require upgrading. During construction, the unformed section of Bartholdt Drive will be closed to traffic and pedestrians.

Bundaberg Regional Council is aware of the inconvenience construction and burning causes and thanks businesses, residents and road users in advance for their patience and co-operation.

Should you have any enquiries, please contact Council's Manager Operations Roads & Drainage, Mr Chris Robinson on 1300 883 699.
