

Co-ordinated wild dog 1080 baiting program

Bundaberg Regional Council undertakes four co-ordinated wild dog baiting programs across the year to target key times in the life cycle of wild dogs.

Landholders requiring baits outside of these dates can contact Queensland Health at health.qld.gov.au to seek approval to purchase bait from commercial suppliers.

Important program requirements

Participants must comply with all of the requirements of the *Medicines and Poisons Act 2019* and the 1080 product label. A copy of the product label will be supplied.

Landowners wanting another person to collect baits on their behalf must provide a signed 'Authority for Agent to Sign' form to Council at the time of bait collection. You can download this form from bundaberg.qld.gov.au or contact a Land Protection Officer prior to the baiting day.

Landowners who have attended prior baiting days must bring labelled buckets previously supplied by Council to be eligible to receive baits.

Before baits are laid, the user must give 72 hours notice, either verbally or in writing, to all neighbours whose property adjoins or fronts the holding either across a road or waterway.

Warning signs must be placed at all entrances to the land being baited and at the extremities of the land boundaries fronting a public thoroughfare.

A record of all notifications stating time/date/occupier/method of notification is required to be kept and be available to be viewed by an Authorised Officer. Owners found to have failed to notify **all** neighbours will be refused future access to 1080 baits.

Wednesday 12 March 2025

9.30 am

Meadowvale Council Depot,
Heales Road

12 pm

Apple Tree Creek Sports Ground,
Bruce Highway

2.30 pm

Gin Gin Council Pound Yard,
Flanders Street

Program registration

To participate in this baiting program, you must register by calling Council on **1300 883 699** or email parksadministration@bundaberg.qld.gov.au

Number of baits supplied

Council will supply up to 20 free meat baits per registered landholder who meet conditions for baiting. The number of baits issued will be dependent on the property size.
